

Projekt

meets

MEET UP AND GET TOGETHER

Vision

Our vision is to create a platform where people can easily connect, interact and find new friends. Members will be able to set up an event from a selected amount of categories, like “Sports”, “Leisure” and “Online”.

The best example is a student, who wants to go for a run with other people at the beginning of his studies. So he joins the platform and takes part in an existing event or simply creates his own.

Team Roles

Andreas Riepl

andreas.riepi@gmx.net

responsible for
